

Aus-Mastic

An acrylic based white pre-mixed D1 tile adhesive for installation of tiles for internal walls only.

Classified as a D1 T E adhesive.

Available in 5 & 15 Litres

Uses

Aus-Mastic is an acrylic based, flexible, pre-mixed internal wall tile adhesive with excellent non-slip properties designed for bonding tiles onto a variety of substrates like render, rendered brickwork, gyprock, plasterboard, and fibre cement sheet surfaces.

Coverage per pail *
<u>6x6 mm trowel</u>
9.9 m ²

**Coverage of adhesives, screeds and membranes are a guide only as there are other factors to take into account. Large tiles consume more adhesive, rough out of plain surfaces consume more materials. Tiles should always be installed as per Australian Standards and good trade practices. Tile and stone should be fully bedded to provide long term support and durability. Large tile and stone should be back buttered to ensure good bond.*
