

Aqua-Band

Fully compliant Class III waterproof membrane that is easy to install, UV stable and compatible with all good quality tile adhesives. It cures to a permanently flexible seamless membrane that has excellent adhesion to a wide range of substrates.

Available in white and grey.

120 mm x 50 m Single

Internal and External corners 50 Pack

Aqua-Band Collars are a wet area grade elastic jointing band designed for use in waterproofing wall/floor junctions of internal and external wet areas. Performs as the waterproofing system bond breaker, avoiding the use of sealant beads and backing rod bond breaker methods. Also suitable for sealing movement joints and expansion joint areas. Consisting of the central rubber section with a flexible polyester fleece making suitable for use with liquid membranes.

Available in 50 pack 50g/m

Rubber Width: 70mm span, 20mm central stretch zone

Thickness: 0.6-0.8mm

Total width: 120mm

Uses

Suitable for all wet areas to be tiled:

- Balconies
- Bathrooms
- Roof decks
- Swimming pools
