- Planters and under pods and pavers

Coverage

Coverage*
1.5 -2.0 L / m ² (2 coats)

*Coverage of adhesives, screeds and membranes are a guide only as there are other factors to take into account. Large tiles consume more adhesive, rough out of plain surfaces consume more materials. Tiles should always be installed as per Australian Standards and good trade practices. Tile and stone should be fully bedded to provide long term support and durability. Large tile and stone should be back buttered to ensure good bond.
