

Aqua-Flex WPM C3

Fully compliant Class III waterproof membrane that is easy to install, UV stable and compatible with all good quality tile adhesives. It is fast drying and rain safe in approx. 2 hours at 21°C.

Available in grey, 5 and 15 Litres

Uses

Suitable for all wet areas to be tiled:

- Balconies
- Bathrooms
- Roof decks
- Swimming pools

Internal and external use.

Coverage

Coverage per 15L bucket*
15 - 20 m ² (2 coats)

**Coverage of adhesives, screeds and membranes are a guide only as there are other factors to take into account. Large tiles consume more adhesive, rough out of plain surfaces consume more materials. Tiles should always be installed as per Australian Standards and good trade practices. Tile and stone should be fully bedded to provide long term support and durability. Large tile and stone should be back buttered to ensure good bond.*
