# AUS-BOND ACCELERATOR

LIQUID SETTING ACCELERANT FOR CEMENTITIOUS ADHESIVES

## DESCRIPTION

**Aus-Bond Accelerator Concentrate** is a specially formulated liquid additive for use in cement based mortars to reduce the set times. **Aus-Bond Accelerator Concentrate** can be mixed with sand/cement, screeds, renders, cement-based tile adhesives and grouts. **Aus-Bond Accelerator Concentrate** can be mixed full strength for a fast set time, or it can be diluted with clean water for a slower set time. Set times will vary depending on temperature and the type of mix it is added to.

**Caution: Aus-Bond Accelerator Concentrate is corrosive, and care should be taken when using this product.**

Suitable for internal and external use.

Available in 5L and 20L.

## MIXING

For best results mix diluted **Aus-Bond Accelerator Concentrate** into the mortar with a slow speed mixer, one that does not entrap air into the mix. Aus-Bond Accelerator Concentrate can be mixed with sand/cement mortars using a mechanical cement mixer. Do not over mix mortar.

## SAFETY

Refer to the Safety Data Sheet for full, detailed instructions in accordance with the hazardous chemicals code of practice.

**Aus-Bond Accelerator Concentrate** is corrosive and care should be taken. Avoid breathing dust, wear an appropriate respirator and provide adequate ventilation. Avoid contact with skin and eyes, wear suitable gloves, eye protection and work wear when using all additives, latex, sand or cement-based products.

## CLEANING

Remove excess adhesive or mortar with clean water while work proceeds. Hardened adhesive or mortars will be difficult to remove.
