

Aus-Bond Ultra Prime

A unique solvent free primer specifically designed with adhesion enhancing properties for non-absorbent surfaces. A safe alternative to hazardous solvent based primers and etching products that is fast drying and water resistant.

Available in Orange

1, 5 and 20 Litres

Uses

Suitable for priming over:

- Wet cement board
- Galvanised iron, zincalume, stainless steel, copper and brass
- Glazed tiles to enable retiling without etching or grinding
- Painted surfaces
- Dense concrete
- PVC and rigid plastics
- General non-porous and shiny surfaces

Internal and external use.

Coverage

Coverage per 1L*
8 - 12 m ²

**Coverage of adhesives, screeds and membranes are a guide only as there are other factors to take into account. Large tiles consume more adhesive, rough out of plain surfaces consume more materials. Tiles should always be installed as per Australian Standards and good trade practices. Tile and stone should be fully bedded to provide long term support and durability. Large tile and stone should be back buttered to ensure good bond.*
