## **Aus-Crete MPA**

The excellent thixotropic properties means you can hang tiles on vertical surfaces and there is low shrinkage, which allows for packing up under tiles plumb and level to the wall or floor.

Available in a range of colours.

White, off white and grey, 20kg

## Uses

Multipurpose adhesive for use on walls and floors. Suitable for:

- Light coloured stone
- Translucent tiles
- Porcelain tile
- Ceramic tile
- Glass tiles
- Mosaics

Internal and external use.

## Coverage

Coverage per bag *				
<u>6x6 mm trowel</u>	10x10 mm trowel			
8-10 m <sup>2</sup>	6-7 m <sup>2</sup>			

\*Coverage of adhesives, screeds and membranes are a guide only as there are other factors to take into account. Large tiles consume more adhesive, rough out of plain surfaces consume more materials. Tiles should always be installed as per Australian Standards and good trade practices. Tile and stone should be fully bedded to provide long term support and durability. Large tile and stone should be back buttered to ensure good bond.
