

Aus-Crete Premium Ultra-Light

High performance, lightweight, flexible polymer fortified adhesive with excellent slip resistance for installing a wide range of tiles over different substrates. Great coverage and easy to use with low shrinkage.

Available in white 14kg with 20% more coverage than a 20kg bag.

Uses

Suitable for heavy traffic, commercial wall and floor installations of tile and stone.

Adheres to a wide range of substrates:

- Extra large tile and stone
- Marble and granite
- Tile over tile
- Porcelain tile'
- Quarry tile and mosaic tile
- All masonry substrates
- Render, brick and block work
- Cement sheet and plasterboard
- Suitable waterproofing
- Permanent wet areas

Coverage

Coverage per bag *	
<u>6x6 mm trowel</u>	<u>10x10 mm trowel</u>
8-10 m ²	approx. 6 m ²

*Coverage of adhesives, screeds and membranes are a guide only as there are other factors to take into account. Large tiles consume more adhesive, rough out of plain surfaces consume more materials. Tiles should always be installed as per Australian Standards and good trade practices. Tile and stone should be fully bedded to provide long term support and durability. Large tile and stone should be back buttered to ensure good bond.
